EDUCATION

University of Illinois Urbana-Champaign

Master of Computer Science

Champaign, IL

Graduating 5/2027

- Cumulative GPA: 3.93/4.00

University of Maryland

Bachelor of Science in Computer Science

College Park, MD

2021 - 2025

Bachelor of Science in Mathematics

- **Academic Awards:** Dean's List for academic excellence, 2021-2025

TECHNICAL EXPERIENCE

UMD EngageBest Project

Team Leader & Full-stack Software Engineer

College Park, MD

09/2023 - 12/2023

- Led a team of six in the development of an experimental web application designed to empower Instructors at UMD in collecting student engagement data. Demonstrated skills in product delivery, work delegation, and familiarity with PHP system architecture, database design, and web development to deliver the product in a short timeframe.

Beijing Normal University

Frontend Technical Intern

Beijing, China

07/2023 - 09/2023

- Worked as front-end web developer undertaking the task of improving and expanding the official website for Beijing Normal University. Took initiative in creating the English webpages for the University's Belt and Road Institute, utilizing knowledge in web design and customer appeal to significantly boost the reach and accessibility of the institute's website towards foreign applicants.

RESEARCH EXPERIENCE

Department of Mathematics, University of Maryland

Undergraduate Researcher

College Park, MD

06/2024 – 06/2025

- Studied recent and historical works on linear optimization to develop algorithms to find optimal solutions for variants of multi-index transportation problems. Developed theories on infeasibility in solid transportation problems and multi-index transshipment problems. Implemented code in GAMS, MATLAB, and Python to collect data on algorithm efficiency.

PUBLICATIONS AND MANUSCRIPTS

- Archana Khurana, **Fei Yuan**, & Niko Zhang, (in press). An Algorithm for Solving the Solid Time-Minimizing Transshipment Problem. *International Journal of Management Science and Engineering Management*.
- Archana Khurana, **Fei Yuan**, & Niko Zhang (2025). Novel Approach to Finding Closest Optimal Solution for Unbalanced Solid Transportation Problems. [Manuscript under review]. Department of Mathematics, University of Maryland.

RELEVANT SKILLS

- **Technical skills:** *JavaScript, Java, Python, C, C++, C#, MATLAB, PHP, SQL, jQuery, React, Node.js, Unity* **Proficiency:** intermediate to advanced
- **Communication:** *Written and oral communication in English and Chinese* **Competency:** advanced
